

THANAPHAT SIRITHEP

Software Engineer & Web Developer

northsnx.dev@gmail.com | Github : northsnx | northsnx.github.io/portfolio

SKILLS

- **Languages:** C#, TypeScript, JavaScript, SQL
- **Frameworks:** React, Next.js, .NET Core, Tailwind CSS
- **Tools:** Git, PostgreSQL, SQL Server, Firebase, Swagger

EDUCATION

SRIPATUM UNIVERSITY

7 May 2026

Bachelor of Engineering (Computer Engineering)

- GPA: 3.37

BENJAMARACHUTIT PATTANI SCHOOL

31 May 2022

Senior High School: Science Math Program

EXPERIENCE

SMARTERWARE CO., LTD.

On - Site

Software Engineer & Programmer

1 May - 31 Aug 2026

PEA SMART PLUS

- Developed mobile and backend solutions using Flutter, ASP.NET Core, and C#, including RESTful APIs, batch processing, SQL Server database operations, RabbitMQ integration, notification services, and system maintenance.
- Technologies: Flutter, .NET Core, C#, SQL Server, React, TypeScript, REST API, RabbitMQ, Git

SAMART CORPORATION PCL.

On - Site

Internship Programmer

5 Jan - 24 Apr 2026

Service Tracking Systems V2.0 (STS)

- Modernized legacy systems by migrating from .NET/MySQL to React (TypeScript) and PostgreSQL, including real-time customer dashboards, API integration, and database operations.
- Optimized internal workflows through real-time task tracking for 300+ users, ensuring high system availability and scalability.
- Technologies: React, TypeScript, .NET, PostgreSQL, MySQL, SQL Server, Swagger, Git

PROJECT

KeepDee

Apr - Aug 2026

- Developed a responsive expense management web application using Next.js, React, and Tailwind CSS.
- Implemented income/expense tracking, transaction categorization, and financial summaries.
- Built PWA capabilities for cross-platform access and app-like user experience.
- Implemented Web Push Notifications using Service Worker and Push API.
- Developed reusable UI components and integrated REST APIs, authentication, and client-side state management.

RakKiRa SPU Academic

May - Dec 2025

- Developed the official website for Khon Rak Ki Ra Club (SPU Academic) using TypeScript with a responsive and modern UI.
- Integrated Supabase for database management and backend services.
- Developed a Backoffice Management System for administrators to manage activities, events, announcements, and website content.
- Designed reusable components and responsive layouts for cross-device accessibility.

LANGUAGES & CERTIFICATIONS

Languages: Thai (Native), English (Basic)

Certifications: HCIA-IoT V3.0 Course, Gemini Certified Educator
